## Defence Housing Australia appoints Peet in South East Queensland

Peet Limited has been appointed by Defence Housing Australia (DHA) to manage and market a new residential development, Warner Springs, in Brisbane.

The agreement with DHA was signed in Canberra and formally announced by the Hon. Warren Snowdon, Minister for Defence Science and Personnel.

The 44-hectare site is expected to yield approximately 465 residential lots of varying sizes and will also include two large sites with potential for medium density housing, commercial or mixed use potential.

DHA will retain approximately 30 per cent of the development to provide housing and related services to Australian Defence Force members and their families and the remaining homesites will be made available to the wider community.

Peet Limited Managing Director and Chief Executive Officer, Brendan Gore, said the agreement was another significant and strategic partnership for Peet, in one of the Group's key markets.

"Peet has a strong commitment to South East Queensland and the agreement with DHA follows the announcement earlier this year of a partnership with MTA Super to develop a 10,000-residential lot community and a city centre at Flagstone.

"We have been particularly active in the Moreton Bay region and the Warner Springs site – just 20 kilometres from Brisbane and closer still to the Enoggera Army Base – presents a tremendous opportunity to deliver another quality, masterplanned residential community in South East Queensland," said Mr Gore.

"Peet looks forward to establishing a very successful community, with a focus on affordability and preserving and enhancing the unique environment of the site, providing an ideal home for members of the defence force and their families and a range of other purchasers including first and second homebuyers."
